Wendover Air Force Base,  
INERT Bomb Warehouse for Inert Bombs  
(Building No. 25)  
HABS NO. UT-125-FFFF  
Page 1

Built east of building 21 in the ordnance area, this is a one-story wood frame structure measuring 48 feet-10 inches by 128 feet-5 inches. It was built from plan WB 9-14 by H & D. It has a concrete slab foundation, gabled roof and composition shingles. The broadsides of building 25 face east and west. In all four exterior walls are garage door openings. Six of these on the north side have been boarded up. In the east wall are four 4-paned windows. On the roof are two attic vents. The interior is impressive from an engineering standpoint, featuring an entirely exposed structure of wood posts (in two lines), trusses and rafters. The building is in good structural condition despite being open to the elements (the doors are gone).
